AAYUSH KARN

Aspiring Data Analyst · B.Tech CSE (AI & Data Analytics)

Phagwara, Punjab · +91 6202699356 · karnaayush249@gmail.com · github.com/karn-blip · LinkedIn

PROFILE SUMMARY

Second-year B.Tech CSE student specializing in AI & Data Analytics with hands-on experience building data-driven tools. Comfortable across the full data workflow — cleaning and analyzing data with Python (Pandas, NumPy), visualizing insights in Power BI and Excel, and building full-stack interfaces. Strong foundation in C, C++, Python, SQL and JavaScript. Seeking an internship to apply analytical thinking to real-world problems.

EDUCATION

B.Tech, Computer Science & Engineering (AI and Data Analytics)

Lovely Professional University, Phagwara, Punjab · 2nd Year · CGPA: 7.83 (Sem 1) / 7.04 (Sem 2)

Relevant coursework: Software Engineering (CSE 320), Database Management Systems (normalization, functional dependencies, SQL, transactions), SQL & Data Visualization (CSE 259) — advanced SQL, database design, Power BI modeling and dashboarding.

TECHNICAL SKILLS

Programming: C, C++, Python, JavaScript, SQL

Data Analysis & Viz: Pandas, NumPy, Matplotlib, Excel, Power BI

Web Development: HTML, CSS, JavaScript, Node.js, React.js

AI / RAG Stack: Ollama, Llama 3.2, nomic-embed-text, ChromaDB, pypdf

Tools: Git, GitHub, PowerShell, VS Code

PROJECTS

PDF Question-Answering Tool (RAG Pipeline) · Personal Project

- Built a local Retrieval-Augmented Generation pipeline in Python that answers natural-language questions about a PDF using only document content.
- Extracted & chunked text with pypdf, generated embeddings via nomic-embed-text (Ollama), stored vectors in ChromaDB, and synthesized answers with Llama 3.2 using paragraph-aware chunking.

Interactive Study Tools: MCQ Platform & Timed Quiz App · Personal Project

- Designed two self-contained study web apps: an MCQ platform with 220+ questions across 6 units and a timed quiz with real-time scoring and active-recall feedback.
- Built entirely with pure HTML/CSS/JS — zero dependencies, fully offline and portable, with a clean dark UI.

Custom Terminal Emulator · Personal Project

- Built a Node.js terminal interface using raw ANSI escape codes with tab completion, cursor control, theme toggling and formatted boot banners.

Custom PowerShell Terminal UI · Personal Project

- Configured an optimized PowerShell environment with custom prompt theming, automation aliases and utility functions to streamline everyday CLI workflows.

ADDITIONAL INFORMATION

- Languages: English, Hindi
- Objective: Looking for internship opportunities in data analytics, applied AI tooling or full-stack development.
